• August 2018 •

## Labour cost (manufacturing hourly compensation costs; US Dollar)

## ITALIAN PUBLIC SMART TECHNOLOGY

New and better occupation and growth of enterprises that work in this sector, through:

- Reinforcement competitiveness, innovation, internationalization;
- Support to research, higher education, design and prototyping;

Collaboration between Public Private Organisations that work in Smart Living Technologies Sector, located in different territories to compare their knowledge and skills with other partners.

The cluster was born to operate at different levels and degrees, and to achieve these objectives:

- Capacity of research and critical mass – scientific excellence in the area of interest;
- Industrial Leadership – number and size of enterprises and their presence in the market;
- Participation of End Users – link to needs of users and consumers;
- Maturity and experience of aggregation – link to integration between research- enterprises- end users- public politics.

Strenghts

## ITALIAN PUBLIC SMART TECHNOLOGY

### Strenghts

SmartCommunitiesTech is the **Italian Technology Cluster** dedicated to the "Technologies for the Smart Communities". It gathers, in a single synergic system, the key Italian actors that address research, technology transfer and industrial innovation in the field of Technologies for Smart Communities.

The Cluster represents a continuously growing network, and currently groups more than **400 partners** including companies, research centers and local Public Administrations from **eleven Italian regions** (Piemonte, Lombardia, Toscana, Veneto, Liguria, Provincia Autonoma di Trento, Emilia Romagna, Umbria, Lazio, Puglia, Sicilia).

## SMART DEVICES

Human movements and activities are increasingly replaced with a delicate purposeful flick of your finger or with your voice

Once there was a remote control...

Smartphones and Wifi freed mankind from cables: Internet is the new 'general channel' and the broadcast is your own life

The beginning of a process:

Automatic gates

Then,

Automatic and remote controlled light switch, security system, music, heater/conditioning system

## VIRTUAL ASSISTANTS

Apple Siri

Google Assistant

Please do it for me!

## E-GOVERNMENT

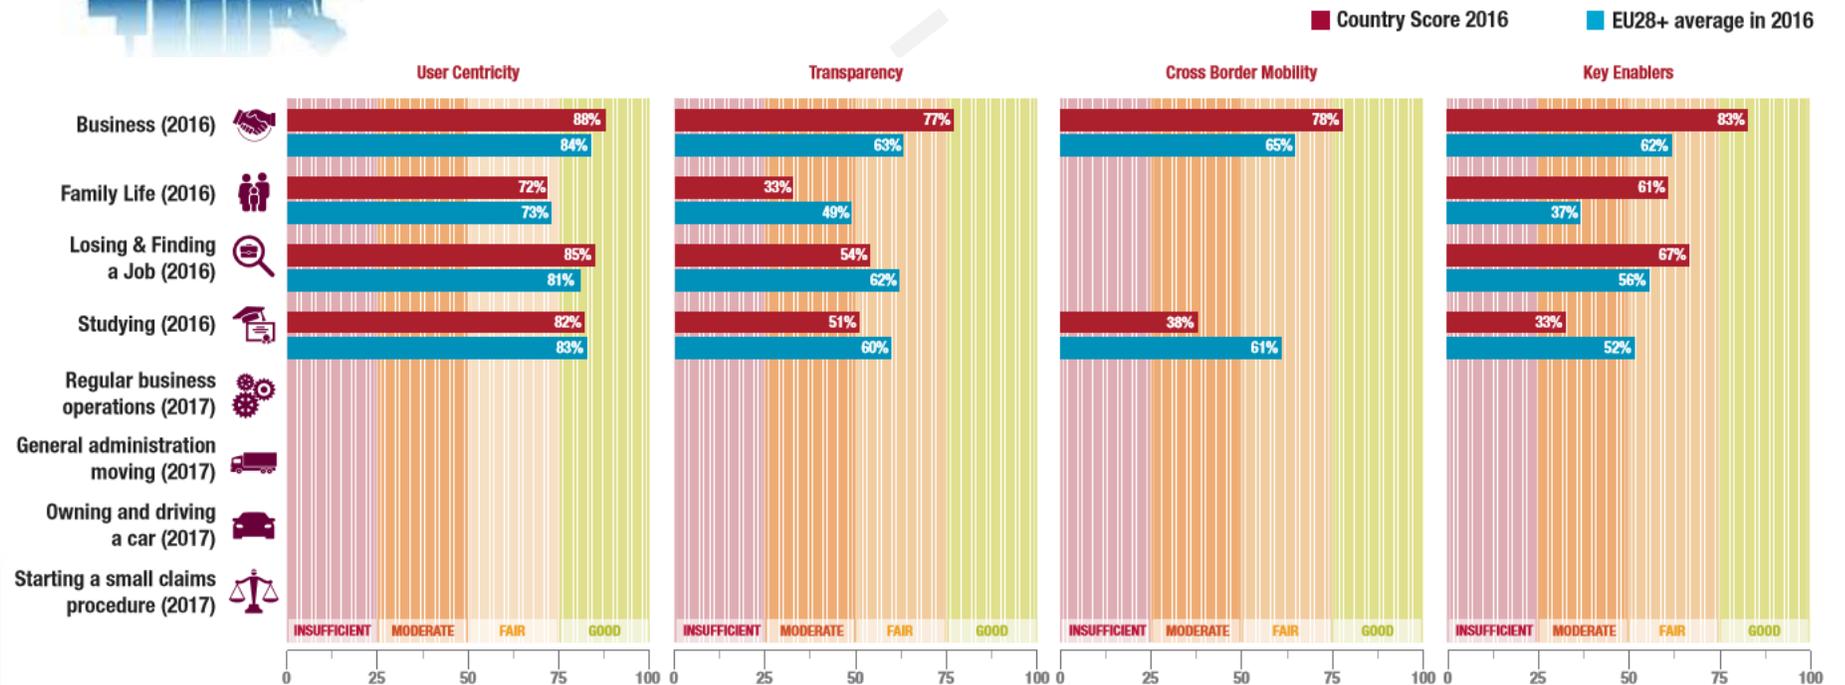

Technological progress is at the service of everyday life

According 'eGovernment Benchmark 2017 Background Report' Italy is within or over EU average

INVEST  
IN ITALY

Source: eGovernment Benchmark 2017 Background Report (November)

The cross-border mobility indicator is not measured for Losing and Finding a Job and Family life  
Each life event is measured once every two years

## EUROPEAN e-GOVERNMENT INDEX

### The five dimensions of the DESI

1 Connectivity	Fixed Broadband, Mobile Broadband, Fast and Ultrafast Broadband and prices
2 Human Capital	Basic Skills and Internet Use, Advanced skills and Development
3 Use of Internet Services	Citizens' use of Content, Communication and Online Transactions
4 Integration of Digital Technology	Business digitisation and eCommerce
5 Digital Public Services	eGovernment and eHealth

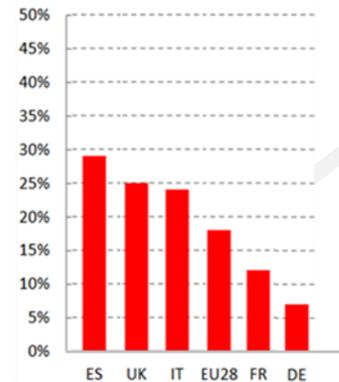

Italy ranks 4th among the 6 biggest EU Members for population

### Progress of Reforms and Infrastructures

#### Italy, smart Nation

- Promoting Blockchain technology
- Internet 5g at the latest in 2018
- Last generation Optical fibre (FTTH)

### E-Government, Focus on e-Health

In e-Health Italy ranks 3rd

open fiber

## INTERNET OF EVERYTHING

Smart tech Sector collects all devices and services useful to make life of the user easier through IoT. When applied to urban areas, it is called Smart Cities

From doorbells to lightening, Internet of things is changing the ways people interact with everyday items. It makes life easier with the touch of a smartphone

However

According to a Research on IoT by Accenture, Users are not confident about security and data privacy

## 2017 Ultra Broadband

52.4%

100%

Governance: COBUL Committee on work

(aggregated data)

	Total	30Mbps	100Mbps
Apulia	87%	72,5%	1,1%
Sardinia	80%	48,6%	0,3%
Calabria	77%	67,3%	0,5%
Basilicata	76%	59%	0,5%
Emilia Romagna	75%	49,5%	2,5%
Tuscany	75%	47,4%	4,4%
Campania	74%	51,5%	2,7%
Liguria	73%	47.2%	1.7%
Lombardy	72%	39,4%	18,8%
Lazio	70%	40%	1,9%
Veneto	68%	44,3%	3,2%
Friuli V.G.	58%	39,3%	2,9%
Marche	52%	44,8%	1%

Areas ready to work on FTTH

(already infrastructured)

5G: liberation of the 700 MHz band already planned

What's coming next...

- HERITAGE TECH
- DESIGN, MADE IN ITALY
- SEA ECONOMICS
- ENERGY

National Foundation financed by the State to conduct scientific research for the purpose of technological development. IIT aims to promote excellence in basic and applied research and to promote the development of the national economy.

IIT's production includes **8569 publications**, over **150 European projects** and **17 ERC** (European Research Council) **projects**, more than **500 active patent applications**, **17 established start-ups** and 26 under due diligence.

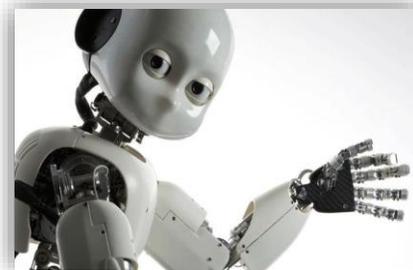

Since 2009, the Institute's scientific activity has been further strengthened with **the creation of eleven IIT research centres in Italy** (in Turin, two in Milan, Trento, Rome, two in Pisa, Naples, Lecce, Ferrara) and **two outstations located abroad** (MIT and Harvard in the US)

11 scientific programs of three types:

**Technology Programs**, primarily imed at developing High tech research in collaboration with external entities and industries:  
**Portable Energy**, **Robotic Rehabilitation**, **Graphene**

**Core Programs**, dedicated to the basic research activities traditionally developed by IIT :  
**Brain Science**, **Robotics**, **New Materials**, **Materials Chemistry**

**Cross Disciplinary Programs**, primarily devoted to high risk-high return research both basic or applied:  
**Interaction**, **Health Technologies**, **Nano-Bio Photonics**, **Computation**

## Abundant and Skilled Workforce

Italy has some of the world's best engineering universities. Indeed, engineering is the 2<sup>nd</sup> highest course for enrolment in the country – **225,619** currently studying an engineering discipline.<sup>1</sup>

The engineering sector currently employs around 417,000 people in Italy.<sup>3</sup>

Mainstay

The Technological Departments of the Italian Universities annually produce a pool of graduates with the knowledge and industry experience to immediately enter the work force.
